

A DIVISION OF COLEBREIT ENGINEERING
DESIGN. BUILD. GROW.

Engineering & design expertise that ensures the best for your cannabis business

Experience.

More than 80 successful cannabis-specific projects and partnerships with growers, architects, contractors, and investors.

Professionalism.

Licensed engineers with more than 100 years of combined experience in mechanical, electrical, plumbing, and process engineering.

Partnership.

Guidance in selecting the well-designed, energy efficient systems that impact your bottom line and productivity.

DESIGN

A sustainable and effective facility, designed specifically to meet your process requirements, is essential for the success of your cannabis cultivation facility. Our depth of experience provides you with the ability to take your operation to the next level with a custom design for your business.

BUILD

Compliance with state and local codes and regulations can be tricky to navigate. Our team understands the unique requirements for building compliant and efficient cannabis cultivation and extraction facilities. Root Engineers keeps the design of your project on schedule, on budget, and done right the first time around.

GROW

Your unique operation has unique needs, which is why Root Engineers dedicates a project manager and an entire team of top engineers to your project. We draw on our years of mechanical, electrical, plumbing, and process engineering experience, coupled with a deep understanding of your business, to make the best recommendations for maximizing your bottom line, now and for the future.

- **Electrical and lighting** design to meet both your short-term needs and long term goals
- **Energy efficient HVAC** design that positively impacts your profits
- **Ancillary MEP Kitchen** design and equipment selection services based on years of commercial kitchen work
- **Experts in extraction** equipment peripherals, including engineering for Class I/Div 1&2 facilities

The team at Root Engineers has a range of sub-specialties and they truly are a full-service firm. We've consistently relied upon their knowledge and professionalism to grow our business.
